Bathtubs

All the bathtubs manufactured at our Kent Foundry are made from cast metal and hand finished in our Pluckley workshops. These are available in a painted colour of choice or in a polished finish with an enamel interior. Copper, Nickel and Brass baths are made from either copper or brass and moulded into their distinctive shape. They are available in an array of interior and exterior finishes, please refer to the finishes section of this brochure for further information.

Bespoke items must be paid in full prior to production. For full specifications and dimensions please email: Technical@catchpoleandrye.com

Basins & Washstands

Conceived by Catchpole and Rye, our basins, washstands and vanity units are designed with both functionality and aesthetic appeal in mind. Ceramic basins are supplied in standard sizes, however marble washstands and vanity units can be customised to your own specification. We offer a variety of marble, wood and metal finishes across our basin ranges. Taps can be either deck or splashback mounted, so please specify your preference at the time of order.

Metal Basins - Ceramic undermounted basins are supplied as standard on all marble washstands and wooden vanity units. However, you can choose a metal basin (undermounted or counter top) as an option for an **additional £400 plus vat** per unit. Metal basins come as nickel, copper, brass, or mixed metal. Please note that The Manhattan washstand **includes** the metal basins as standard.

Metal Frames - Our standard metal finishes are; Silver Nickel, Chrome Plate and Polished Brass. Premium Finishes; Aged, Brushed and Black Nickel.

Customisation - We may be able to provide customised solutions to suit your requirements – this could include a specific type of marble for example, or indeed a shelf for storage.

For a comprehensive list and descriptions of metal, marble and wood options, please refer to the back of this brochure.

IMPORTANT Taps and fittings are **NOT** included with any basin, washstand or vanity unit. These can be purchased separately.

Basin Options Under Mounted & Countertop		Excluding VAT	
Undermounted Basin	405 x 355 x 190mm	Ceramic	£500.00
Metal Oval Undermounted Basin	490 x 395 x 210mm	All Finishes	£850.00
Metal Countertop Basin	405 x 355 x 190mm	All Finishes	£850.00

Metals basins cost an additional £400 plus vat when purchased with a washstand or vanity unit. Metal Basins are available in Copper, Nickel and Brass. The interior of the metal basins can have contrasting metal finishes, for example Nickel and Brass as shown below right. Please specify at the time of ordering or request further information.

Marble Vanity Units

La Parisienne | Vanity Excluding VAT

Bespoke items must be paid in full prior to production. For full specifications and dimensions please email: Technical@catchpoleandrye.com

Marble Washstands

Introducing the newest addition to our product catalogue, The Charleston.

The juxtaposing geometric shapes of the angular leg detailing and the visible semi-circular basin and sleek simplicity of the slim frame combine to create a modern masterpiece. The newly released Charleston Washstand is a classic example of a truly sophisticated bathroom fixture.

Elegance comes in many forms and this marble-top washstand is an exemplar of form following function. The Charleston Washstand is manufactured at our Kent Workshops in England by highly skilled craftsmen, where attention to detail is paramount.

The Charleston Single | Washstand

1000 x 1290 x 600mm

Taps & Faucets

All our luxury bathroom taps are made from solid brass of the highest quality and fitted with a quarter turn ceramic disc mechanism. These high specification fittings not only allow for ease of use, but also increase the general life expectancy.

For descriptions on our metal finishes, please refer to the finishes guide in this brochure.

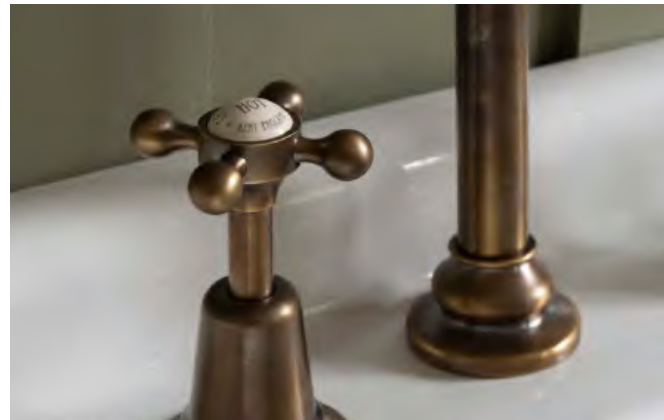

La Loire | Tap Head

The La Loire tap head features a distinctive French 19th-century appearance with drooped handles and crackle glazed ceramic indices. The text on the indices is in French - 'CHAUD' and 'FROID'.

The English | Tap Head

The English tap originates from an Edwardian design with classic capstan hand wheels, featuring crackle glazed ceramic indices for an authentically aged appearance. The writing on the indices comes with the traditional 'HOT' and 'COLD'.

La Fontaine | Lever

La Fontaine features a ceramic lever, fired in our own kiln with a unique crackle glaze finish, for an authentically aged appearance.

La Fontaine Noire | Lever

La Fontaine Noire is a sophisticated black ceramic lever with a smooth glossy appearance suitable for more contemporary installations.

The Solheim | Lever

The Solheim Lever is turned from solid brass at our engineering workshops in Kent. Suitable for modern and Rough Luxe settings.

Showers

Made from solid brass, all of our Showers come with a fully thermostatic shower valve. The bore and capability of this high performance unit allows one to optimise available water pressures. With the Le Thermo range, you can choose from either an exposed pipework version, or a concealed unit which has a minimal, contemporary appearance.

La Fontaine levers come as standard, however you can request one of our other tap heads or lever options should you wish. Please note that the main lever on the valve can only have La Fontaine/Noire or Solheim lever option.

The Throne | Lavatory Seat & Cistern

Grand and majestic, The Throne Seat can transform a standard lavatory into the centerpiece of any cloakroom or bathroom. The Throne Seat will accommodate most standard lavatory pans.

Excluding VAT

Standard	575mm x 885mm x 1110mm	All Finishes	£4,500.00
Deluxe	575mm x 885mm x 1110mm	All Finishes	£5,000.00

Please note that you will be required to purchase a cistern and cistern lever separately with our standard version. It can be installed with either a concealed low level cistern or a high level cistern. Please note that the W/C pan is sold separately on both versions.

The Thunderbox | Lavatory Seat & Cistern

The Thunderbox is a true replica of a Victorian lavatory seat and comes with an integral concealed cistern and lever.

Excluding VAT

610mm x 940mm x 745mm	Standard Finishes	£3,000.00
-----------------------	-------------------	------------------

Please note that the W/C pan is sold separately.

The Box Seat | Lavatory Seat

The Box Seat is a solid, heavy duty wooden seat that is made in Kent. Based upon an original design it is suitable for most standard lavatory pans. A variety of wood stains and finishes are available.

Excluding VAT

490mm x 590mm x 130mm	Standard Finishes	£750.00
-----------------------	-------------------	----------------

The Round Seat | Lavatory Seat

The Round Seat is our most popular design. Its classic appearance suits any design style. Again, made in Kent from solid wood and available in a variety of finishes and wood stains.

Excluding VAT

390mm x 570mm	All Finishes	£700.00
---------------	--------------	----------------

A modified version of The Round Seat is available for close coupled W/C ensembles.

Our Standard finishes include; Silver Nickel, Chrome Plate and Polished Brass. Our Premium Finishes include; Aged, Brushed and Black Nickel Finishes.

Bespoke items must be paid in full prior to production. For full specifications and dimensions please email: Technical@catchpoleandrye.com

Heated Towel Rails

Made from 100% brass, our heated towel rails are suitable for central heating systems and can be supplied as dual fuel or electric only options. The dual fuel versions are fitted with an electrical element that regulates heat output via an integral thermostat. This ensures that the towel rail can be operated whilst the central heating is switched off, allowing you to keep your towels warm, regardless of the time of year. Electric only versions operate solely via an electrical element.

For descriptions on our metal finishes, please refer to the finishes guide in this brochure.

Our Standard finishes include; Silver Nickel, Chrome Plate and Polished Brass. Our Premium Finishes include; Aged, Brushed and Black Nickel Finishes.

The Mercantile Collection

Our inspiration for this designer rail was an original Shanks of Barrhead version manufactured around 1890. It features unique cog shaped nuts that connect the transverse rails to the solid metal joints on the uprights. This practical design concept allows us to manufacture these rails in Kent with a mixture of metals - most notably brass and copper. It also means we can easily customise the width of the rails.

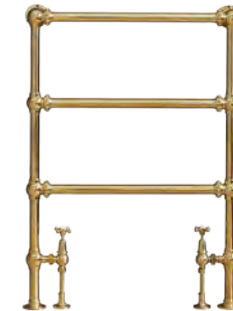

The Mercantile Wall Mounted | Wall Mounted

Plaques & Emblems

All of our Bathtubs and Cisterns can be customised with the addition of our signature emblems or a bespoke one of your own design. We also offer three different plaque designs to choose from for our Nickel, Copper and Brass Bateau.

Bespoke Cisterns

The Deluge cistern can be customised with a bespoke finish or house name, date or any wording you wish. The price for this type of customisation is a one off fee of £1000 plus VAT for one or more cisterns. For complex designs, such as logos or emblems the process is longer and will be assessed on the complexity of the design. All customised cisterns will involve longer lead times and require approval before casting.

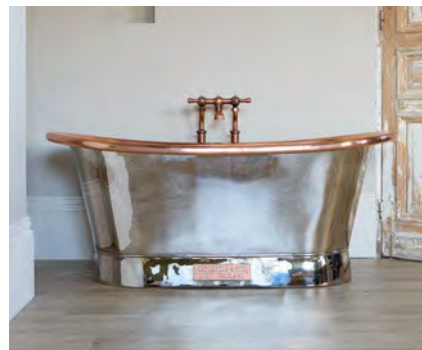

Plaques

We offer three bath plaque options, **Standard** which matches the exterior of your bath, **Contrast** which matches the interior of your bath (except when the interior is enamel) and the **Highlighted** plaque that shows the lettering emphasised, normally in the same finish as the interior. Alternatively, you can choose to not have a plaque. Please specify at the time of ordering. **Bespoke** plaques with your own design or wording can also be produced for an extra cost. Please speak to us about your customisation requirements.

Standard Plaque

Contrast Plaque

Highlighted Plaque

Emblems

We offer two standard bath emblems, the C&R Wheatshaf and the Venetian Crest. Both emblems can be cast or mounted onto your bath. The additional cost is £1,000 plus VAT.

The C&R Wheatshaf

Le Grand (Cast Metal Bathtub)

The Painted Bateau with Polished Brass Interior

The Venetian Crest

The Vingt-Neuf (Cast Metal Bathtub)

The Charcoal Bateau with Polished Brass Interior

Bespoke Emblems

Bathtubs can be customised to your own specification, allowing you to personalise a bath with a coat of arms, bespoke logo, initials or emblem. Please contact us to discuss your requirements

IMPORTANT

Most cast metal baths are cast with a small Catchpole and Rye wheatshaf logo as standard on either end of the bath. If you would prefer the bath to be cast without the logos, please stipulate this at the time of ordering.

Metal Bathtubs

All of our Cast Metal bathtubs come with enamelled interiors, and have the choice of polished or painted exteriors. Our Copper, Nickel and Brass Bateau's can also have an enamelled interior if desired. However, we also offer a metallic interior of Polished Nickel or the polished base metal the bath is made from, this is either Brass or Copper.

Cast Metal

Polished

Our most requested finish: it takes up to a week of hard work to polish and buff the exterior of a cast metal bath to give it an amazing silver mirror-like finish. The end result is truly spectacular and definitely the focal point of any bathroom. All polished baths are sealed with a clear lacquer.

Painted

Painting the exterior of your bath in a colour of your choice can help compliment an overall design scheme. We generally recommend paint from the Farrow & Ball range, but can match any colour. This painted exterior is also available on our Nickel, Copper and Brass Bathtubs. Please specify your paint colour when ordering.

Nickel

Polished Nickel

The original classic Nickel Bateau is a firm favourite. The silver sheen both inside and out provides a real wow factor to any bathroom.

Brushed Nickel

Brushed Nickel has a matt silver appearance, which has been abraded by hand and sealed with a lacquer. Brushed Nickel provides a perfect contrast to the lustrous silver interior.

Antique Nickel

Antique Nickel is a consistent finish like Brushed Nickel but with a much darker pewter-like tone.

Copper & Brass

Polished Copper

The true original, this bath is made entirely of copper and highly polished both inside and out for a gleaming finish.

Brushed Copper

With an understated sheen, the brushed copper finish has an even matt appearance.

Antique Copper

The Antique Copper finish shares the same matt quality effect as brushed copper, but with a deeper more leathery tone.

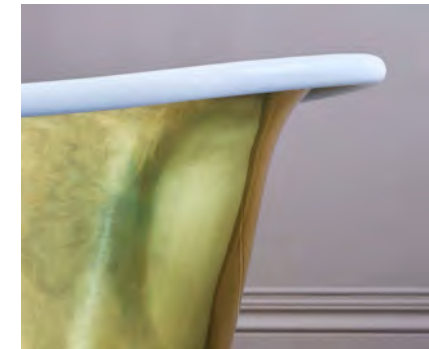

Weathered Copper

The Weathered Copper simulates an organic aging process on the exterior of the bath with variations of dark and light copper tones. Weathered finishes may vary in tones/shades.

Verdigris

Verdigris is a bluish-green encrustation or patina that is naturally formed on a copper base by atmospheric oxidation. Here the process has been perfectly recreated in our workshops.

Polished Brass

The true original, this radiantly lustrous bath is made entirely of brass and polished both inside and out for a gleaming finish.

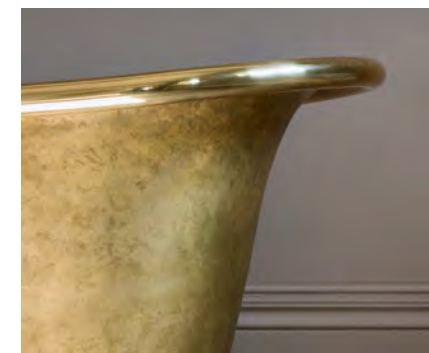

Brushed Brass

This elegant finish has a very pale matt gold appearance, offering a smart, sophisticated look.

Antique Brass

With an even brushed effect throughout, the antique brass finish has a dark brass tone resembling aged bronze.

Weathered Brass

Mimicking brass that has aged and patinated over time, this multi-tonal brass finish has a matt bronze-like quality. Weathered finishes may vary in tones/shades.

NOTE: Exterior and interior finishes on all baths are completely sealed with a unique lacquer and are impervious, unless otherwise requested.

Metal Cisterns

Our Metal cisterns come in a variety of metal finishes, which have each been described below. The flushpipe and fittings are available in any of our brassware finishes seen on the following page. Physical samples can be ordered from our sales team, or viewed in our Kent and London showrooms.

Painted Cisterns

Charcoal

Our charcoal finish is an exclusive creation, which provides a consistent chalky matt appearance. It offers a bold contrast against flush pipe finishes.

Painted

We use paint from the Farrow and Ball range or The Little Greene Paint Company, but can match to any colour required. Please note; specialist paint finishes may incur an extra charge.

Nickel Cisterns

Silver Nickel

The cistern is first polished to a high shine, it is then nickel plated and finally buffed to give it its lustrous, silver-like quality.

Brushed Nickel

Brushed Nickel has a dull silver appearance, which has been abraded by hand and sealed with a lacquer.

Antique Nickel

Antique Nickel is a consistent finish like Brushed Nickel but with a much darker pewter like tone.

Copper & Brass Cisterns

Polished Copper

Plated in copper, this cistern is highly polished to a gleaming finish.

Brushed Copper

All the beauty of copper without the lustrous sheen, this brushed copper effect has an even matt appearance.

Antique Copper

The Antique Copper finish shares the same matt quality effect as brushed copper, but with a much deeper leathery tone.

Weathered Copper

The Weathered Copper simulates an organic aging process on the exterior of the cistern with variations of dark and light copper tones. Weathered finishes may vary in tones/shades.

Verdigris

Verdigris is a bluish-green encrustation or patina that is naturally formed on a copper base by atmospheric oxidation. Here the process has been perfectly recreated in our workshops.

Polished Brass

Gleaming gold, the brass is hand buffed to a high sheen and lacquered to keep its gold-like appearance.

Brushed Brass

This elegant cistern has a pale matt gold brushed appearance, offering a smart, sophisticated finish.

Antique Brass

With an even brushed effect throughout, the antique brass finish has a dark brass tone resembling aged bronze.

Weathered Brass

Mimicking brass that has aged and patinated over time, this multi-tonal brass cistern has a matt bronze-like quality. Weathered finishes may vary in tones/shades.

Brassware

All of our products made from solid brass can be plated in a number of different metal finishes. These include; Taps & Faucets, Showers, Heated Towel Rails, Cistern Fittings, Basin Frames and all of our Accessories.

Silver Nickel

A versatile finish that will match to most metal finishes due to its reflective warm tones.

Brushed Nickel | *Premium*

Suited to painted, brushed metals, this versatile matt finish blends into most bathroom settings.

Black Nickel | *Premium*

Best coupled with any silver tones finish. This pewter-like finish is the perfect contemporary twist to any bathroom.

Polished Brass

Works well paired with polished brass, copper or any other polished finishes. Please note this finish comes unlacquered.

Brushed Brass | *Premium*

Modern and matt, this golden finish suits most colour palettes and styles.

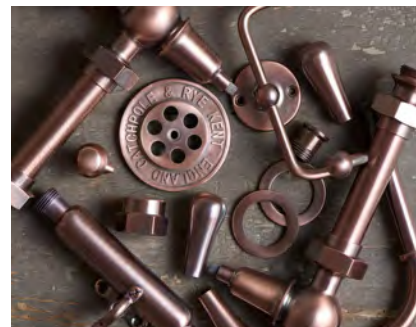

Aged Brass | *Premium*

Versatile when coupled with matt or brushed finishes. This also works well with any copper or brass pairings.

Chrome

Traditional and hard-wearing, chrome is best combined with a polished cistern or to compliment other polished finishes.

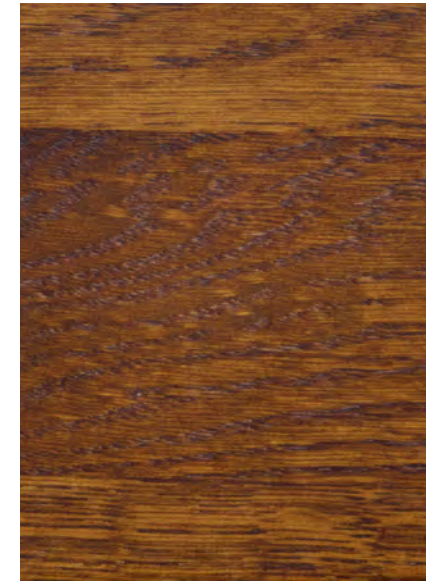

Aged Copper | *Premium*

Owing to its rich russet colour, this finish works well with darker toned rooms with antique flair or with bold colour choices.

Wood

Manufactured from high quality sustainable timbers, our vanity units and toilet seats come in a number of wooden finishes. We can also paint units in any colour of choice, however specialist paints may incur additional charges.

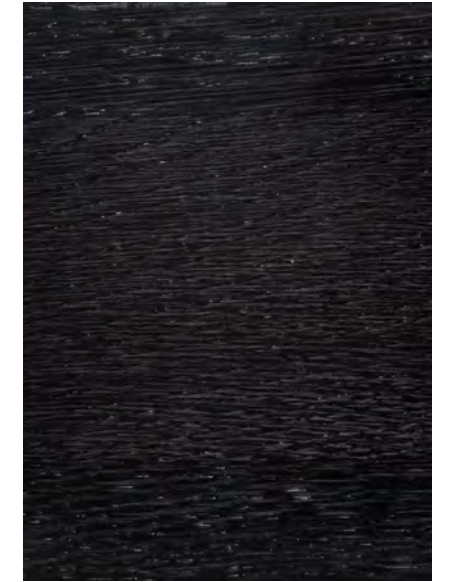

Natural Oak

NOTE: Solid wood is a natural material and as such may be subject to variations in colour and shades.

Limed Oak

NOTE: Solid wood is a natural material and as such may be subject to variations in colour and shades.

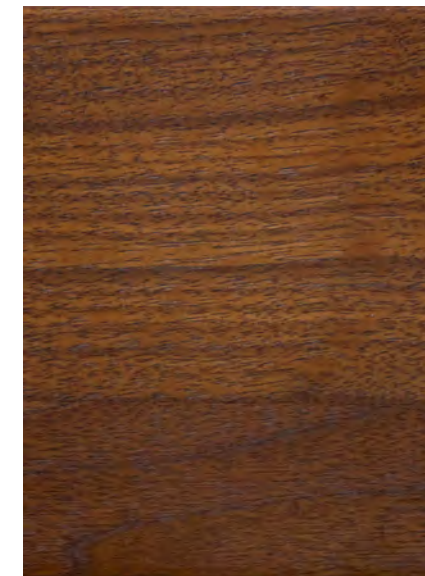

Ebonised Oak

NOTE: Solid wood is a natural material and as such may be subject to variations in colour and shades.

Mahogany

NOTE: Solid wood is a natural material and as such may be subject to variations in colour and shades.

Walnut

NOTE: Solid wood is a natural material and as such may be subject to variations in colour and shades.

Painted White

NOTE: Solid wood is a natural material and as such may be subject to variations in colour and shades.

Our Standard finishes are; Silver Nickel, Chrome and Polished Brass. An additional cost (plus VAT.) will applied to Aged, Brushed and Black Nickel Finishes.

Marble & Natural Stone

We offer five marble and stone options for all of our washstands and vanity units; Portoro, Natural Slate, Nero Granito, Arabascato and Verde. Marble and stone can also be requested in a honed finish, which gives a matt appearance.

Portoro

A classic Italian marble, this rich and sumptuous brown/black marble has veins and flecks of cream and gold.

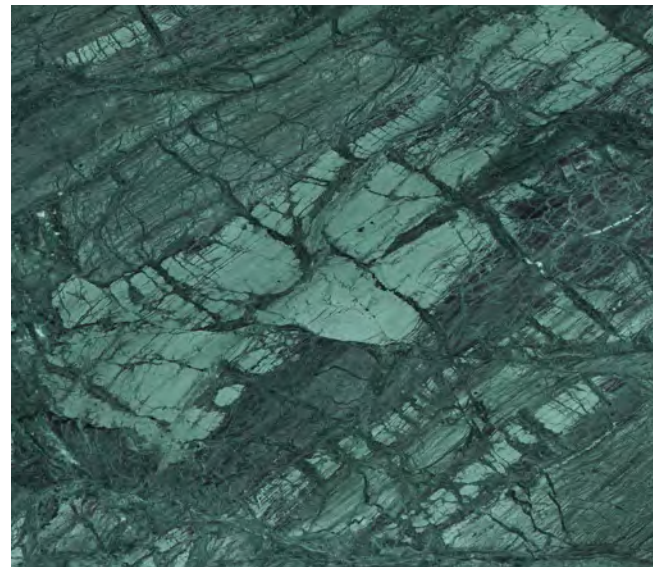

Nero Granito

A rich black granite with white veins and speckling running throughout.

Arabascato

Carrera Arabascato is the classic Italian marble, its white base contrasted with clean grey veining provides an elegant and timeless feel.

Verde

Our newest addition to the range, this striking marble with varying flecks of green pairs beautifully against our aged metal finishes.

Marble and Stone are natural products and as such may be subject to variations in colour and shades.

All products with bespoke marble must be paid for in full before production commences.

Important Information

CAST METAL BATHS

The weight of a cast metal bath ranges from 150 kilos to 250 kilos. It is imperative that the floor is capable of supporting this weight. If you have any doubt, please consult a qualified professional before installing the bath. It requires 3-4 strong individuals to move a cast metal bath.

OVERFLOWS, WASTES AND TAPS

These are sold as separate items unless otherwise stated.

INSTALLATION

All our baths, showers and sanitary ware should be fitted by a qualified installer. If you or your installer have any technical queries we would be happy to give advice and assistance. Technical information and specifications are also available online at www.catchpoleandrye.com or call 01233 840840 for further assistance.

NOTE: Please ensure there is adequate pressure to operate the products you have selected.

UK DELIVERY

Catchpole & Rye Limited offer a nationwide delivery service and operate a scale of modest charges. Alternatively, stock can be collected from our warehouses in Kent. All orders are double checked, wrapped in appropriate packaging and dispatched in good condition. Once you have checked your order, please sign the delivery docket. Replacements for damaged or incorrect items can only be undertaken if reported within three days of delivery. Whilst every effort is made to ensure satisfactory delivery of customer orders, we cannot accept liability for any damage caused to property in pursuance of specific requests for goods to be unloaded. Equally, we do not accept responsibility for lost working time in the unlikely event of a delivery being incorrect, delayed or postponed.

INTERNATIONAL SALES AND DELIVERY

Catchpole and Rye can arrange worldwide delivery. Details of charges will be confirmed in advance or at the time of quotation. Please note that unless otherwise agreed we are not responsible for any import duties, taxes or brokerage fees that may be incurred in the recipient country. For customers outside the UK, please call +44 (0)20 7351 0940 or email info@catchpoleandrye.com.

LEAD TIMES

Many standard items are kept in stock and can be delivered quite quickly. Normal lead time for a complete bathroom is around 16 weeks. This can be clarified at the time of ordering. Lead times for bespoke or dedicated items will vary.

PAYMENT

We accept all major credit and debit cards. Payments can be made via BACS transfer, phone or in store. The buyer is required to pay a 50% deposit when placing the order, with the balance due once delivery commences or upon completion. Bespoke orders must be paid for in full when the order is placed.

COPYRIGHT & DATA PROTECTION

KENT SHOWROOM & WORKSHOPS

By Train: If you intend visiting by train we can collect you from either Pluckley Station or Ashford International. Please call in advance to arrange. Trains for Pluckley depart from Charing Cross and London Bridge and take approx 1 hours and 10 minutes. The High Speed Rail Link from St Pancras to Ashford International takes approx 37 minutes.

By Car: From M20 exit the M20 at junction 9 for Ashford. Follow signs for the A20 towards Lenham and Charing. Stay on this road for about two miles until you see signs for Hothfield and Little Chart on your left. Turn left at sign which takes you into the village of Hothfield. When you get to the village sign, turn left into the road - The Street. Stay on this road for around 2 miles and you will find us on the right hand side. (Catchpole & Rye sign on road)

If Travelling from the A28: Leave the A28 in Bethersden towards Pluckley. Follow the road for around three miles. Turn right around 500 yards after the Railway Bridge at Pluckley Station. Turn right into Pluckley Road and you will approach Catchpole and Rye on your left. Parking: There is onsite parking provided.

Saracens Dairy,
